EDUCATION

University of Illinois Urbana Champaign

August 2024 - May 2026

Master of Science, Information Management

GPA: 3.8/4

• Coursework: Data Warehousing & Business Intelligence, Information Management, Information Consulting, Methods of Data Science

University of Mumbai

June 2019 - May 2023

Bachelor of Engineering, Computer Science

GPA: 9.25/10

• Coursework: DBMS, Big Data Analysis, Data Warehousing and Mining, Project Management, NLP, Machine Learning, Social Media Analytics

SKILLS

- **Analytical:** Data Analysis, Exploratory Data Analysis, Statistical Analysis, Trend Analysis, Root Cause Analysis, KPI Reporting, Data Validation, Data Cleaning, Anomaly Detection, ETL, Predictive Analytics, NLP, Text Classification, OCR
- **Programming / Querying:** Python, SQL, Pandas, NumPy, PySpark, PostgreSQL, Neo4j, scikit-learn
- **Visualization / Reporting:** Power BI, Tableau, DAX, Excel, VBA, Dashboard Development, Data Visualization
- **Data / Cloud / Tools:** AWS S3, EC2, Redshift, EKS, FastAPI, Docker, Git, Kafka, pgVector, GCP

WORK EXPERIENCE

University of Illinois Urbana Champaign

May 2025 - Present

Research Assistant - iSchool

Champaign, USA

- Owned end-to-end design and development of **cross-platform system integrating** wearable data for 100+ users, enabling scalable **data ingestion** and analytics
- Designed and optimized **PostgreSQL architecture** for high-volume, production-scale datasets, improving query performance by 38%
- Built Python pipeline for document parsing, text extraction, and summarization using NLP techniques, improving downstream analytical accuracy by 43%
- Developed automated data workflows and exception alerting pipelines for real-time processing with focus on reliability and scalability

Research Assistant - CHI AI in Infodemic Management

January 2025 - May 2025

- Designed and deployed NLP classification pipelines in Python to process and categorize high-volume text datasets, reducing processing latency by 41%
- Built distributed data ingestion pipelines using **Kafka** and **Neo4j** Streams for real-time, high-throughput processing and pattern detection
- Developed production-grade **APIs** and deployment workflows to improve system reliability and reproducibility
- Performed anomaly detection and pattern analysis on large-scale data streams to surface exceptions and drive automated reporting workflows

Business Intelligence Group

August 2025 - December 2025

Technical Consultant

Champaign, USA

- Built and deployed scalable, microservices-based Retrieval-Augmented Generation (**RAG**) system using **FastAPI**, **PostgreSQL**, and vector embeddings
- Designed efficient, fault-tolerant **ETL** pipelines to process and index large document datasets for low-latency retrieval
- Improved system performance by **64%** through optimized indexing strategies and pipeline efficiency improvements
- Developed backend services enabling real-time, high-performance querying of unstructured data

Swift Mobil Software Solutions Provider

July 2023 - October 2023

Data Analyst

Mumbai, IN

- Built interactive **Power BI** dashboards for **logistics** and **mobility KPIs**, reducing reporting time by **40%** and improving visibility into operational performance across transportation services
- Processed and optimized large-scale operational datasets using **Python** and **PySpark** to identify failure, trends, and performance issues
- Developed **SQL** and **graph queries** to map dependencies, analyze operations, detect data quality issues, speeding root-cause analysis by **26%**

Pscope Technologies Pvt. Ltd.

January 2023 - June 2023

Data Analyst

Mumbai, IN

- Developed and maintained **20+ Power BI** dashboards across Sales, Finance, and Operations for enterprise clients, applying **SQL**, **DAX**, and **statistical analysis** to surface KPI trends and support cross-functional business decision-making
- Automated recurring **Excel**-based reporting workflows using **VBA**, reducing report preparation time by **42%** and improving data consistency across weekly reporting cycles

Stu/Dio at Illinois

August 2025 - Present

Project Manager

Champaign, USA

- Led cross-functional team of **6** to deliver product updates for DeepCover, game, using user feedback and performance insights to guide data-driven feature decisions
- Tracked **sprint** progress, delivery metrics, and **QA issues** through **JIRA**-based workflows, improving cross-team visibility and supporting on-time milestone reviews

PROJECTS

FMCG Sales Demand Forecasting

March 2025

[View Project](#)

- Analyzed FMCG **sales demand data** across categories and locations to identify trends, seasonal patterns, and key drivers impacting inventory
- Built and benchmarked forecasting models including ARIMA, SARIMA, and regression to evaluate demand patterns and improve forecast accuracy using RMSE and MAPE
- Derived actionable insights on promotions, pricing, and stock behavior, enabling better inventory planning and reducing stockouts and overstocking risks
